Dr. Meena Krishan Gursahani passed away at the age of 72 on May 18, 2023 after a long battle with Alzheimer's Disease. Prior to her diagnosis, Dr. Gursahani practiced for over 40 years as a Radiologist, focusing on the early detection of breast cancer. “ I recently learned of Dr. Gursahani's passing. We worked together in the late 1980s at friendly Hills regional Medical Center and later we both worked at the PIH women's breast center. During the many years of working together, we shared stories of our children, families, and respected each other's roll in our profession of radiology. Words are not enough to express the respect and love for her I always held in my heart and always will. Thank you, Dr. G for making the world a better place. You are sorely missed and joyously remembered always.
