“Dad is survived by his wife, two sons, 6 grandchildren and 3 great grandchildren. Born in Dearborn Michigan but move to Southern California in the late 1950's with his family, he attend La Habra High School and got his General Contractor's License and worked in residential home construction for over 45 years. If you live in a house in Southern California with a real fireplace, chances are my Dad had a hand in that build. My Dad was a sportsman, he loved the outdoors, camping, fishing, hunting, and traveled all over California to see the sites. His favorite spot was June Lake in the High Sierra Mountains for opening day trout fishing. He taught my brother Mark & I how to fly fish, turkey hunt, gold prospecting and to fly RC airplanes during our youth. He passed that love down to his grandkids too. In addition to his love for the outdoors, Dad was a “Gearhead” and loved hot rod cars and airplanes - just about anything with an engine that went fast (although he said he'd never get into an airplane himself). We spent many weekends at the drag races or at an airshow. He was also a football fan and loved the LA Rams and a time or two, we would go to the stadium to see them play back in the day. I want to say the man I am today is much in part due to my Dad, he taught me many skills I use today. I know how to make repairs my own vehicles or my house because of my Dad. He encouraged my brother & I to get our college degrees and not settle to just work in the family construction business but seek my own path. Because of my Dad, my kids and grandkids have a love for the outdoors. Dad, I will miss our phone conversations. You will be missed dearly by your family and friends. With love your oldest son- David
